# Regulations Setting Out Fees for Spectrum Licences, Certificates and Examinations

Helene Vosloo

Executive: Economics and Market  
Development

3 October 2023

# New Proposed Spectrum Fees

- Fixed spectrum fees will be increased by 2.5% inflationary increase as proposed;
- Mobile spectrum (2G, 3G and IMT) will have a new base value of N\$ **1,100.00** from the proposed N\$ 1,210.00
- Point-to-Point will have a new base value of N\$ 98.00
- VSAT will have a new base value of N\$ **550.00** from N\$ 650.

# New Proposed Frequency Band Factors

Frequency Range		FBF
From	To	
450 MHz	470 MHz	0.5
694 MHz	790 MHz	1.5
790 MHz	862 MHz	1.5
862 MHz	960 MHz	1.5
1427 MHz	1675 MHz	0.75
1710 MHz	1785 MHz	0.75
1805 MHz	1880 MHz	0.75
1920 MHz	1980 MHz	0.75
2110 MHz	2170 MHz	0.75
2300 MHz	2400 MHz	1
2500 MHz	2690 MHz	1
3300 MHz	3600 MHz	2.25
24.25 GHz	43.5GHz	0.75

# New Proposed Frequency Band Factors

## FIXED AND MOBILE SATELLITE SERVICES

Frequency Range	FBF
All fixed and mobile satellite spectrum bands	0.25

# Impact of Revised Fees

- Overall mobile spectrum will reduce by 28%
- P2P will reduce by 13%
- VSAT will reduce by 38%
- This will be to benefit for all players to whom spectrum has been assigned.
- Broadcasting P2P will reduce from N\$ 966 to N\$ 950

# Way Forward

- Discussion document will be updated
- Final Regulations will be updated to reflect the new fees and new FBFs as discussed.

**Thank You**
